SUBJECT INDEX TO VOLUME 133

ABDOMEN
surgery, midline approach in orchiopexy, 285
tumors, left upper quadrant, diagnosis of by multiple organ scans, 963
Adrenal glands
excision, compared with hypophysectomy in treatment of advanced carcinoma of breast, 241
Aneurysm
aorta, abdominal ruptured technique for control of, 107
Aorta
abdominal, aneurysm, technique for control of ruptured, 107
Ascites
experimental, colloid osmotic pressure in hepatic cirrhosis, 65

BACTERIA
filtration, by surgical masks, 812
Biliary tract
disease, evaluation of manometric operative cholangiography in, 949
ducts, common, experimental, motility, vagosympathetic pathway capable of influencing, 225
common, injury, repair of, 293
experimental, role of in delivery of bile into intestine, 826
fistulas of, 84
roentgenography, manometric operative, evaluation of in biliary disease, 949
Blood
antithrombin-III, depressed activity associated with oral contraceptives, 609
circulation, acute failure, measurement of plasma volume and red blood cell mass during, 621
coagulation, changes after combat trauma and sepsis, 393
defects in burn patients, 613
disease, hypoglycemia, and arteriography, 447
flow, experimental, regional effects of G suit during hemorrhagic shock, 637
graft, muscle, skin, after epidural block in vascular surgical procedures, 59
studies on velocity with ultrasonic flowmeter, 815
hemodynamics, experimental, vena caval interruption, influence of level of ligation of, 257
hyperkalemia, experimental, treatment of with large dosages of insulin, 833
red cell, mass, measurement of plasma volume and during acute respiratory failure, 621
serum, autoanalyzers, multichannel, 603
osmolality, measurements in neonatal surgical patient, 93
preoperative lipid profile in surgically treated coronary arteriosclerosis, 807
Blood pressure
arterial, effect of chlorpromazine, 565
Blood vessels
arteries, central pulse evaluation and parenteral infusion, 855
coronary, disease, preoperative serum lipid profile in surgically treated, 807
surgery, bypass operations, combined with valvular replacement, 1015
disease, calibrated plithysmography in, 597
grafts, bovine, surgical techniques, 268
mesenteric, occlusion, intestinal obstruction due to, 583
pulmonary, contralateral ligation and long term survival after lung autotransplantation, 425
experimental, and portal vein shunt, surgical application, 967
renal, embolism with anuria, 419
roentgenography, and hypoglycemia, 447
superior mesenteric, occlusion, experimental, lethal endotoxemia in, 81
surgery, graft, muscle, skin blood flow after epidural block, 59
surgery, portal-systemic shunt, selection of patients for, 1008
tumors, of parotid region in children, 973
veins, axillofemoral, bypass graft, 297
inflammation, postinfusion, prophylaxis against, 253
portacaval, side-to-side anastomosis, experimental enzymatic and histologic effects of, 35
portal, experimental, and pulmonary artery, surgical application, 967
shunts, and pulmonary artery, experimental surgical application, 967
systemic shunt, results of selection of patients for, 1008
subclavian, thrombosis, secondary to indwelling catheter, 397
thrombosis, phlebography in, 301
umbilical, operative cannulation, clinical application of, 39
vena cava, ligation, results of, 257
Bone
marrow, blood flow, experimental, studied by iodoantipyrine clearance technique, 472
tumors, malignant, primary, needle biopsy of, 829
Book Shelf
assassination of Reinhard Heydrich, 304
Christian Fenger, 1840–1902, 857
Pagan roots of western hospitals, 1019
Brain
surgery, for severe posttraumatic encephalopathy, 634
tolerance, to impact in football, 929
Breast
cancer; carcinoma, hypophysectomy compared with adrenalectomy, 241
lymph node interrelations in tissue culture, 959
male, 629
in three families, 644
inflammation, lobar, 577
male, cancer; carcinoma, 629
Burns
coagulation defects in, 613

CANCER
breast, carcinoma, hypophysectomy compared with adrenalectomy, 241
carcinoma, lymph node interrelations in tissue culture, 959
male, 629
and ovary, in three families, 644
gallbladder, carcinoma of, 561
head and neck, parotid duct transplantation for correction of drooling, 663
immunotherapy, clinical experiences, 209
liver, metastasis, diagnostic value of gamma-glutamyl transpeptidase and alkaline phosphatase in, 769
mouth, carcinoma, floor of, surgical treatment of, 971
ovary, carcinoma, and of breast, in three families, 644
pancreas, carcinoma, pancreatectomy for, 16
perineum, carcinoma, recurrent, after abdominoperineal resection, 390
regression, and host immunity evaluated by computerized data reduction study, 649
surgery, hypophysectomy compared with adrenalectomy, 241
treatment for carcinoma of floor of mouth, 971
treatment, sulfhydryl inhibitors in preferential attack on, 458
uterus, cervix, carcinoma, intraepithelial, treatment of, 779
Carbon dioxide
and oxygen tensions in experimental wounds, 1003

Collective Review
Cause and prevention of postoperative intraperitoneal adhesions, 497
Developmental neurophysiology of human brain, 1025
Immunologic aspects of cancer, 321
Metastatic neoplasms to head and neck, 673
Past and present of medical education, 865
Pathophysiologic consequences of cholecystectomy, 113

DRUGS
antihistamine, effect of in renal transplantation, 75
chlorpromazine, effect on renal function and blood pressure, 565
immunosuppressive, cyclophosphamide, and whole organ transplantation in human beings, 981
iodoantipyrine, experimental, clearance technique, bone marrow blood flow studied by, 472
isoniazid, effect of in renal transplantation, 75
oral contraceptives, depressed antithrombin-III activity associated with, 609
sulfhydryl inhibitors in preferential attack on cancer, 458

EDITORIAL
Abuse of blood transfusions, 1014
Anemia, prophylaxis, and therapy of coronary disease, 660
Anesthesiologist responds, 850
Anesthesiologist and surgeon, 290
Captains are courageous, 1013
Education and assessment of surgical knowledge, 659
Ideal suture material, 475
Is splenectomy harmless?, 98
No humbug, 291
Nosocomial ecology, 661
Reluctance and radicalism in cancer therapy, 849
Surgeon and anesthesiologist, 476
Treatment of advanced carcinoma of prostate, 97

Enzyme
gamma-glutamyl transpeptidase and alkaline phosphatase, diagnostic value in liver metastases, 769

Esophagus
diverticulum, safeguards in repair of, 851
surgery, management of achalasia by transabdominal cardiomyotomy and, 482

FOOT
neuroma, interdigital, 265

Fractures
pelvic, hernias related to, 440

GALLBLADDER
calculus, development of, 937
diagnosis of, 774
relationship to vagotomy, 656
cancer; carcinoma, of, 561

Gastrointestinal tract
peritonitis, fecal, experimental, new model for producing, 846
ulcers, experimental, thrombotic, 21

HEART
surgery, preoperative serum lipid profile in coronary arteriosclerosis, 807
valvular replacement combined with coronary artery bypass operations, 1015
transplantation, donor, 792

Hernia
related to pelvic fractures, 440

Hormones
growth, regulation and insulin in organic hyperinsulism, 1

IMMUNITY
cancer, clinical experiences, 209
effect of immunosuppression on wound healing, 72
host, and spontaneous regression of cancer evaluation by computerized data reduction study, 649

Infants
newborn, serum osmolality measurements in surgical, 93
surgery, serum osmolality measurements in, 93

Infections
bacterial, in obstetric and gynecologic patients, 837
wounds, experimental, reduction of with iodized gut sutures, 946

Instruments and apparatus
catheter, Fogarty, auxiliary applications of, 666
indwelling, subclavian venous thrombosis secondary to, 397
silicone elastomer, percutaneous introduction of, 105
clamp for hepatic resection, 103
G suit, experimental, regional blood flow effects of during hemorrhagic shock, 637
infusion device, simultaneous central arterial pulse evaluation and parenteral, 855
intravenous hyperalimentation cart, 1017
manometric cannula, for use in operative cholangiography, 949
multichannel autoanalyzers, 603
ultrasonic flowmeter, studies of velocity blood flow with, 815

Insulin
hyperinsulin, organic and growth hormone regulation, 1
large dosages, experimental, for treatment of hyperkalemia, 833

Intestines
colon, pseudo-obstruction of, 44
fistula of, 84
management of, 385
ileum, simplified conduit, Daniel's technique for, 853
intussusception, interrelationships of, and integumentary system, 999
obstruction, mesenteric vascular occlusion, 583
physiology, experimental delivery of bile into, 826

Isotopes
radioactivity, scan, multiple organ, diagnosis of left upper quadrant masses by, 963

JEJUNUM
surgery, crosscut gastrojejunostomy, 485

KIDNEYS
arteries, embolism, with anuria, 419
disease, indications for parathyroidectomy in, 218
function, after sepsis in combat casualties, 237
metabolism, experimental, alteration in ureteral obstruction in vivo, 843
perfusion, experimental, functional assessment of isolated system, 588
hypothermic, experimental, low flow, 401
physiology, effect of chlorpromazine on, 565
transplantation, effects of isoniazid and antihistamine in, 75

LIVER
cancer; carcinoma, metastasis, diagnostic value of gamma-glutamyl transpeptidase and alkaline phosphatase in, 769
cirrhosis, colloid osmotic pressure in, and experimental ascites, 65
function, experimental, deficits in isolated, 89
perfusion, experimental, functional assessment of isolated system, 588
experimental, functional deficits in, 89
primate, experimental, enzymatic and histologic effects of side-to-side portacaval anastomosis in, 35
rupture, spontaneous, during pregnancy, 250
surgery, hemihepatectomy, lobectomy experience with, 467

Lungs
function, changes after operative and accidental trauma, 617
experimental, effects of saline and colloid solutions on, in hemorrhagic shock, 53
primate, transplantation, experimental, morphologic alterations in, 821
transplantation, autogenous, long term survival with immediate contralateral pulmonary artery ligation, 425

Lymphatic system
lymph nodes, breast carcinoma, interrelations in tissue culture, 959

MOUTH
cancer; carcinoma, of floor of, surgical treatment of, 971
surgery, for carcinoma of floor, 971

Muscles
cardiac, skeletal, experimental, endotoxemic effect on mitochondria, 433

transplants, skin blood flow after epidural block in vascular surgical procedures, 59

NECK
penetrating wounds, management of, 49
Nerves
cranial, vagus, section of, relation to cholelithiasis, 656
laryngeal, recurrent, in thyroid operations, 978
pudendal, block, evaluation of, by measurement of urethral pressure, 453
vagosympathetic, experimental, pathway capable of influencing common bile duct motility, 225
Nose
surgery, for posterior epistaxis, 669
Nutrition
intravenous hyperalimentation cart, 1017

OBESITY
fatty acid, toxicity, 992
Ovary
cancer; carcinoma, in three families, 644
Oxygen
and carbon dioxide tensions in experimental wounds, 1003

PANCREAS
cancer; carcinoma, total pancreatectomy for, 16
surgery, for ductal carcinoma, 16
Parathyroid
disease, hypercalcemia, serum multichannel autoanalyzers, 603
treatment, role of surgery in, 627
surgery, indication for, in renal disease, 218
Parotid duct
transplantation, for correction of drooling in cancer of head and neck, 663
Pediatrics
vascular tumors of parotid region in, 973
Pelvis
fractures, hernias related to, 440
Perineum
cancer; carcinoma, recurrent, after abdominoperineal resection, 390
Pharynx
diverticulum, safeguards in repair of, 851
Pituitary glands
excision, compared with adrenalectomy in treatment of advanced carcinoma of breast, 241
Plasma
volume, measurement of and of red cell mass during acute circulatory failure, 621
Prostate
surgery, fistula, rectal flap repair of, 489

RECTUM
surgery, fistula, flap repair of, 489
Roentgen rays
diagnosis, cholangiography, manometric operative, 949

SALIVARY GLAND
parotid, vascular tumors of in children, 973
Sepsis
coagulation changes after, 393
Shock
hemorrhagic, electrolyte solutions in resuscitation, 273
experimental, effects of saline and colloid solutions on pulmonary function, 53
regional blood flow effects of G suit during, 637
traumatic, problem of, 799
Skin
integumentary system, relation to intussusception, 999
Spinal cord
cervical, surgery, delineation in percutaneous radiofrequency cordotomy, 30
Spine
cervical, dislocation, stereotaxic realignment of, 262
Stomach
fistula, management of, 385
pylorus, surgery, pyloroplasty, 100
surgery, crosscut gastrojejunostomy, 485
ulcers, experimental, thrombotic, 21
Surgery
abdominoperineal resection, recurrent carcinoma of perineum, 390
cholangiography, manometric, evaluation in biliary disease, 949
experimental, bone marrow blood flow studied by iodoantipyrine clearance technique, 472
common bile duct motility, vagosympathetic pathway capable of influencing, 225
effects of saline and colloid solutions on pulmonary function in hemorrhagic shock, 53
endotoxemic effect on cardiac and skeletal muscle mitochondria, 433
fecal peritonitis, new model for producing, 846
functional, assessment of isolated liver-kidney perfusion system, 588
deficits in isolated perfused pig liver, 89
hepatic cirrhosis and ascites, 65
influence of level of ligation on results of vena caval interruption, 257
morphologic alterations in transplanted primate lung, 821
primate liver, enzymatic and histologic effects of side-to-side portacaval anastomosis, 35
pulmonary artery-portal vein shunt and its surgical application, 967
reduction of wound infection with iodized gut sutures, 946
regional blood flow effects of G suit in hemorrhagic shock, 637
renal metabolism, alteration occurring in ureteral obstruction in vivo, 843
role of bile duct system in delivery of bile into intestine, 826
thrombotic ulceration of gastrointestinal mucosa, 21
treatment of hyperkalemia with large dosages of insulin, 833
use of lathyrism to study wound healing, 247
liver, hemihepatectomy and left lobectomy, 467
masks, microbial filtration by, 812
postoperative complications, cardiorespiratory functional changes, 617
repair of common bile duct injury, 293
renal perfusion, experimental, low flow hypothermic, 401
role, in treatment of hyperparathyroidism, 627
technique, axillofemoral bypass graft with saphenous, cephalic, and basilic veins, 297
bovine arterial grafts, 268
combined valvular replacement and coronary artery bypass operations, 1015
crosscut gastrojejunostomy, 485
Daniel's for simplified ileal conduit, 853
midline transabdominal approach to orchiopexy, 285
operative umbilical vein, cannulation, 39
parotid duct transplantation, 663
percutaneous, introduction of silicone elastomer catheters, 105
radio-frequency cordotomy, cervical spinal cord, 30
phlebography, 301
for posterior epistaxis, 669
pyloroplasty, 100
rectal flap repair of prostatorectal fistula, 489
repair of common bile duct injury, 293
repair of pharyngoesophageal diverticulum, 851
ruptured abdominal aortic aneurysm, control of, 107
for severe post-traumatic encephalopathy, 634
stereotaxic realignment of dislocated cervical spine, 262
total pancreatectomy for ductal carcinoma, 16
transabdominal cardiotomy and fundoplication for achalasia, 482
Surgical Pros and Cons
477–481
Sutures
gut, iodized, experimental, in reduction of wound infection, 946

TESTES
surgery, midline transabdominal approach, 285
undescended, midline trans-abdominal approach in, 285
Thrombin
depressed activity of, associated with oral contraceptives, 609
Thyroid
surgery, recurrent laryngeal nerve in, 978

Transplants
arteries, bovine, surgical techniques, 268
autogenous, lung, with immediate contralateral pulmonary artery ligation, long term survival after, 425
blood vessels, arterial, blood flow after epidural block in surgical procedures, 59
heart, donor, 792
kidney, effects of isaniozid and antihistamine in, 75
lung, primate, experimental, morphologic alterations in, 821
parotid duct, for correction of drooling in cancer of head and neck, 663
uterus, primate, experimental, 414
whole organ, cyclophosphamide in human beings, 981
Trauma
accidental, cardiorespiratory functional changes after, 617
changing panorama of collision, 783
acute severe, problem of, 799
combat, alkalosis after, 11
coagulation changes after, 393
neck, management of penetrating wounds of, 49
operative, cardiorespiratory functional changes after, 617
postencephalopathy, surgical treatment of, 634
Tumors
abdomen, left upper quadrant, diagnosis by multiple organ scans, 963
bone, malignant, primary, needle biopsy of, 829
melanoma, malignant, in North American Negro, 437
neuroma, of foot, 265
vascular, of parotid region in children, 973

Ureters
obstruction, in vivo, experimental, alteration in renal metabolism, 843
Urethra
pressure, measurement of, evaluation of pudendal nerve block by, 453
Uterus
cervix, cancer; carcinoma, intraepithelial, treatment of, 779
pregnancy, abortion, hypertonic intra-amniotic saline solution for, 955
spontaneous rupture of liver during, 250
primate, transplantation, experimental, 414

Wound
experimental, infection, reduction of with iodized gut sutures, 946
oxygen and carbon dioxide tensions in, 1003
healing, effect of immunosuppression on, 72
secondary, experimental, lathyrism in study of, 247
infection, experimental, reduction of with iodized gut sutures, 946
war, post-traumatic alkalosis in, 11
renal function after sepsis in, 237

ABSTRACTS SUBJECT INDEX TO VOLUME 133

ABDOMEN
ascites, misdiagnosis, in children, 899
examination, laparoscopy, 720
involvement in Hodgkin's disease, staging of, 927
pain, from hereditary angioneurotic edema, 900
surgery, emergency, and full stomach, 1081
intussusception after, in children, 347
laparotomy, for medical patients, 196
tumors, free, 161
wall, and carcinoma of cecum, 165
closure, 161
groin, cancer, surgery, vascular complications after, 548
omphalocele, management of, 899
reconstruction, 705
skin grafts, full thickness, 341
wounds, stab, 899, 900
stab, examination of, 755
surgery, 899
Adrenal glands
aldosteronism, primary, effects of spironolactone, 362
cortex, tumors, and hypertension, aldosterone and plasma renin levels, 190
diagnosis, angiography, selective, and scintiscans, 1083
fetus, steriodogenesis, during diabetic pregnancy, 726
hyperplasia, ambiguous genitals from, 190
Amputations
extremities, intra-osseous anesthesia, 366
lower conservative approach to, 368
for vascular disease, 369
fingers, problems in, 918
stump management, plaster or soft dressing, 740
Anesthesia
caudal, lignocaine, in children, 373
cyclopropane, cardiovascular effects, 375
diethyl ether, cardiovascular effects, 754
epidural, lumbar, in labor and delivery, 197
ether, cardiovascular effects, 375
Fluothane®, repeated, liver necrosis after, 197
fluroxene, cardiovascular effects, 375
in geriatric patients, 197
halothane, cardiovascular effects, 375
effect on perfused liver, experimental, 754
hepatitis, diagnosis of, 1081
sensitization, and postoperative fever, 921
hyperthermia and hypothermia, 374
intra-osseous, in limb amputation, 366
ketamine, 375
lignocaine, and nerve conduction studies, 374
local, cardiac effects of, 197
and malignant hyperpyrexia during, 1081
methoxyflurane, effect on perfused liver, experimental, 754
and kidneys, oxalosis and azotemia after, 197
toxicity after, 197
with neck contraction, in children, 753
nitrous oxide, during cesarean section, acid-base balance during, 1081
and operating room temperature, effect on paralyzed patient, 754
paracervical block, fetal bradycardia after, 907
peridural, gastrointestinal tract, analysis, 921
spinal, disposable needles, 375
succinylcholine, during cesarean section, acid-base balance during, 1081
thiopental, during cesarean section, acid-base balance during, 1081
Angiography
adrenal glands, 1083
arterial, in upper extremities, 200
brain, stem, tumors, 377
subdural empyema, 339
celiac, in liver tumors, 167
cerebrum, 1083
choroid, tumors, 518
gastrointestinal bleeding, 199, 757, 924
inferior mesenteric artery, 923
kidneys, surgery, 1063
and toxemia, in late pregnancy, 1058
transplantation, 1088
lungs, bronchogenic carcinoma, 555
pancreas, 715
carcinoma, 555
pulmonary embolism, 755
renovascular hypertension, 184
spleen, hydatid cysts, 1054
veins, of posterior cranial fossa, 201
Antibiotics
adriamycin, arterial infusion, 559
in burns, 749
dactinomycin, and trophoblastic growths, 537
dihydrostreptomycin, in inner ear, roentgenography, 889
gentamicin sulfate, for pseudomonas osteomyelitis, 741
kanamycin, and hearing loss, 519
and Klebsiella aerogenes infection, 753
mithramycin, in neoplasms of testes, 544
for Paget's disease of bone, 1086
penicillin, and resistant pneumococci, 753
solafur, for peritonitis and suppurative cholangitis, 1054
streptomycin, during pregnancy, effect on hearing in child, 688
Anticoagulants
therapy, for thromboembolism, hemorrhage after discontinuation, 1078
Anus
fissure, sliding skin grafts for, 162
imperforate, sacrococcygeal perineal approach, 712
lesions, and Crohn's disease of intestine, 164
Aorta
abdominal, aneurysm, rupture, into inferior vena cava, 746
surgery, and anterior spinal artery syndrome, 193
anastomosis, with right pulmonary artery, in newborns, 896
aneurysms, saccular, resection and Dacron® patch, 1075
arch, anomalies, 157
ascending, and right pulmonary shunts, for heart disease, 1049
coarctation, surgery, 370
surgery, in children, 703
roentgenography after, 896
dissection, sexual disturbances after, 548
fistulas, aorticopulmonary, 703
reconstruction, fluid requirements and shifts after, 151
roentgenography, 755
stenosis, congenital, electrocardiogram, 528
surgery, for regurgitation, left ventricular function after, 151
thoracic, aneurysms, luetic, 919
coarctation, recurrent, 1050
rupture, traumatic, 745
Ascites
misdiagnosis, in children, 899

BACTERIA
Escherichia coli, and pulmonary hemodynamics, in septic shock, 1080
pneumococci, resistance to penicillin, 753
Pseudomonas aeruginosa, and abortion, experimental, 177
Bile
and gallstones, 536
jaundice, obstructive, 170
postoperative, 713
Bile ducts
cholangiography, percutaneous transhepatic, 713
common, cancer; carcinoma, 167
choledochoduodenostomy, for lithiasis, 1053

cysts, surgery, 166
fistula, choledochoduodenal, and duodenal ulcers, 1082
replacement, with silicone rubber, 168
extrahepatic, hypoplasia of, 716
inflammation, suppurative, solafur treatment for, 1054
Biliary tract
surgery, anastomosis, Roux-en-Y, 168
reoperation, 168
Bladder
cancer; carcinoma, intra-epithelial, 361
carcinoma, papillary transitional cell, ultrastructure of, 361
radiation therapy, 202
unsuspected, 1068
dysfunction, neurosurgical considerations in, 189
exstrophy, 189
ureteroileorectostomy for, 912
function, in infants, 1068
inflammation, cyclophosphamide hemorrhagic, 382
neck, disease, in children, 735
stenosis, cystourethrography, 1064
reflux, surgery, Leadbetter-Politano technique, 1063
ureteropelvic obstruction after, 1063
roentgenography, and incontinence, 1065
stones, electric lithotripsy, 735
endemic, in children, 190
surgery, colocystoplasty, 1066
flaps, Boari's technique, 1066
gynecologic, suprapubic catheterization after, 1067
tumors, 361
clinical staging, 361
excision, 1067
papilloma, benign, and cancer at other sites, 187
Blood
antibodies, antilymphocytic, isolation of, 205
sperm-agglutinating, in infertile females, 172
circulation, cross, for hepatic coma, 350
extracorporeal, and acute liver failure, 713
Lande-Edwards membrane oxygenator, and blood damage, 198
peripheral, electric impedance plethysmography, 547
coagulation, changes in, and septic shock, 177
hypercoagulation, and respiratory distress syndrome and hemorrhage, in premature infants, 1059
and respiratory distress syndrome and hemorrhage, in premature infants, effect of heparin in, 1059
intravascular, septicemia, heparin for, 196
and low birth weight, in newborns, 907
preoperative screening test, 922
and vascular catheterization, 378
dialysis, Australian antigen in, 767
at home, 734
large vessel shunts, 359
for uremia, 185
disease, spherocytosis, congenital, and spleen, 925
erythrocytes, anemia, hemolytic, and Crohn's disease, 165
anemia, after hemorrhage, in intestinal resection and blind loop syndrome, 705
iron deficiency, after gastrectomy, 531
frozen, in openheart surgery, 552
hemoglobin level, in pregnancy, 727
estriol level, during pregnancy, 725
fibrin, degradation, and eclampsia and toxemia, 178
fibrinogen, and prosthetic heart valves, 156
flow, in bones, radioisotopic measurement, 556
dermal, increase, after sympathectomy, 745
in fetus, effect of carbon dioxide, 725
peripheral, response to feeding, in newborns, 1059
renal, corticosteroid treatment, in hemorrhagic shock, 372
in trauma and hemorrhagic shock, 554
globulin, antilymphoblast, purification of, 206
groups, in trophoblastic neoplasia, 905
hemodynamics, and quadriplegia, 1040
hypercalcemia, furosemide for, 195
hypercholesterolemia, surgery for, 558
hypermagnesemia, after kidney transplantation, 207
hypocalcemia, after thyroidectomy, 689
leukemia, and solid tumors, in siblings, 559
loss, and aspirin, sodium salicylate, and acetaminophen, 748
and replacement, during lung surgery, 1077
lymphocyte, and cancer of lung, 1086
occult, in feces, 707
oxygen, hypoxemia, from hyperventilation, 344
plasma, factor XIII, and wound healing, 762
fraction I, and bleeding, after tonsillectomy, 135
hypermagnesemia, from asphyxia, in newborns, 907
immunoreactive gastrin in, 761
parathyroid hormone in, assay of, 1038
volume, dextran 40 substitution, and anesthesia, 371
platelets, function, with mitral valve prosthesis, sulfinpyrazone therapy, 152
function, and venous thromboembolism, 1077
and hemorrhage, experimental, 761
and prosthetic heart valves, 156
serum, amino acids in nonpregnant females, 357
creatine phosphokinase estimations in malignant hyperpyrexia, 374
Blood
sodium, deficiency, neurosurgical, and inappropriate antidiuresis, 1039
transfusion, donor cells after exchange and fetal transfusion, 358
and elective surgery, 371
hepatitis, 195
and gamma globulin, 195
maternal-fetal, effects of, experimental, 906
refusal of, electrolyte solution instead, 747
Blood pressure
central venous, during labor, 906
high, aldosterone and plasma renin levels, and adrenocortical tumor, 190
and aneurysms of renal artery, 920
dietary salt intake, and plasma renin activity, 768
intrahepatic portal, decompression, survival after, 168
pulmonary, 150
and renal artery aneurysms, 1063
and renal trauma, 733
renovascular, angiography, 184
and urinary estriol level, during pregnancy, 724
Blood vessels
arteries, anastomosis, false aneurysms of, suture failure in, 549
aneurysms, and thrombus, effect of antifibrinolytic drug, 693
aortofemoral, prosthesis, infected, 194
aorto-iliac, grafts, 193
atherosclerosis, occlusive, surgery, 193
bronchial, selective catheterization, 923
cardiopulmonary bypass, experimental, 376
carotid, bifurcation, emboli from, and cerebral ischemia, 137
cervical, ligation, for intracranial aneurysms, 139
endarterectomy, and cerebral perfusion pressure, 338
fistulas, 137
internal, aneurysms, 548
fistula, artificial embolization of, 338
celiac trunk, stenosis, 194
stenosis, cephalic pancreatoduodenectomy, 745

congenital, 919
extrinsic, 193
roentgenography, 757
cerebral, insufficiency, surgery, 745
communicating, anterior, of cerebrum, aneurysms, ruptures, gastroduodenal complications, 1040
complications, in nephrosis, 550
coronary, fistulas, congenital, 700
obstruction, surgery, 530

occlusion, surgery, 1050
roentgenography, 379
sclerosis, surgery, 1048
embolism, fat, diagnosis, 748
extracranial, obstruction, and cerebrovascular insufficiency, 522
in extremities, occlusion, embolic, 1075
femoral, grafts, in diabetics, 1075
roentgenography, complications of, 745
femoropopliteal, reconstruction, for ischemia of lower extremities, 920
gastric, left, ligature of, 1075
gastroduodenal, ligature of, 1075
grafts, observations on, 548
great, catheter extraction from, 702
transposition, atrial septectomy for, 897
after balloon atrial septostomy, in infants, 703
hepatic, infusion, for metastasis, 925
interruption, during portacaval anastomosis, 536
ligation, 1054
for tumor of liver, 927
and portal vein ligation, liver function and blood flow after, 167
iliac, common, dissection, sexual disturbances after, 548
infusion, with adriamycin, 559
injuries, acute, management of, 549
insufficiency, below-knee amputation, and air splints, 550
malformations, 1076
and galenic system, 379
of spinal cord, 892
mesenteric, inferior, angiography, 923
occlusion, balloon catheter endarterectomy for, 548
pulse curve morphology, and ^{133}Xe clearance, 549
peripheral, occlusion, surgery, 369
surgery, fasciotomy in, 547
popliteal, injuries, and femoral and tibial fractures, 915
posterior communicating, dilation, 137
pulmonary, dilatation and hilar dance, in atrial septal defects, 1049
